

Όνομα:

Ημερομηνία:

Α΄ ΤΑΞΗ
ΜΑΘΗΜΑΤΙΚΑ
Δάσκαλος: Αναστασιάδης Χαράλαμπος

Υπολογίζω αναλύοντας τους αριθμούς με βάση το 5 όπως το παράδειγμα:

$\begin{array}{l} \boxed{7 + 6} = 10 + 3 = 13 \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ 6 = 5 + 1 \\ 7 = 5 + 2 \end{array}$	$\begin{array}{l} \boxed{9 + 6} = \dots + \dots = \dots \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ 6 = 5 + \dots \\ 9 = 5 + \dots \end{array}$
$\begin{array}{l} \boxed{8 + 7} = \dots + \dots = \dots \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ 7 = 5 + \dots \\ 8 = 5 + \dots \end{array}$	$\begin{array}{l} \boxed{9 + 8} = \dots + \dots = \dots \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ \dots = \dots + \dots \\ \dots = \dots + \dots \end{array}$
$\begin{array}{l} \boxed{9 + 7} = \dots + \dots = \dots \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ \dots = \dots + \dots \\ \dots = \dots + \dots \end{array}$	$\begin{array}{l} \boxed{6 + 8} = \dots + \dots = \dots \\ \downarrow \quad \downarrow \quad \uparrow \quad \uparrow \\ \dots = \dots + \dots \\ \dots = \dots + \dots \end{array}$
