Cyberbullying

Cyberbullying

monikapetrova

Cyberbullying

It is a story about a girl called Annie. She had a boyfriend but she sometimes felt bored with him. She tried to read but it wasn't entertaining for her. She wanted her mum to buy her a computer. The girl every day begged her mum to buy one.

Cyberbullying

Mother finally bought it. Annie made some site registration and on the first day of her registration a boy offered to meet her. And she went to a party with this person.

Cyberbullying

Unfortunately the people who met Annie were very bad and almost hurt Annie. These people ruined Annie's self-esteem.

Cyberbullying

The next day Annie was upset. But at the end of the day her boyfriend came to see her and comfort her.

Cyberbullying

Finally they settled down and became very close. They continued their happy way and felt happy with their families, too.
