

During the 3rd project meeting in Helsinki, students worked in mixed international groups and created poems and small stories around the theme of **tolerance and friendship** with the help of **Storybird**. Here below you can enjoy some of **the poems**. Considering the little amount of words available, the results are amazing! Well done!

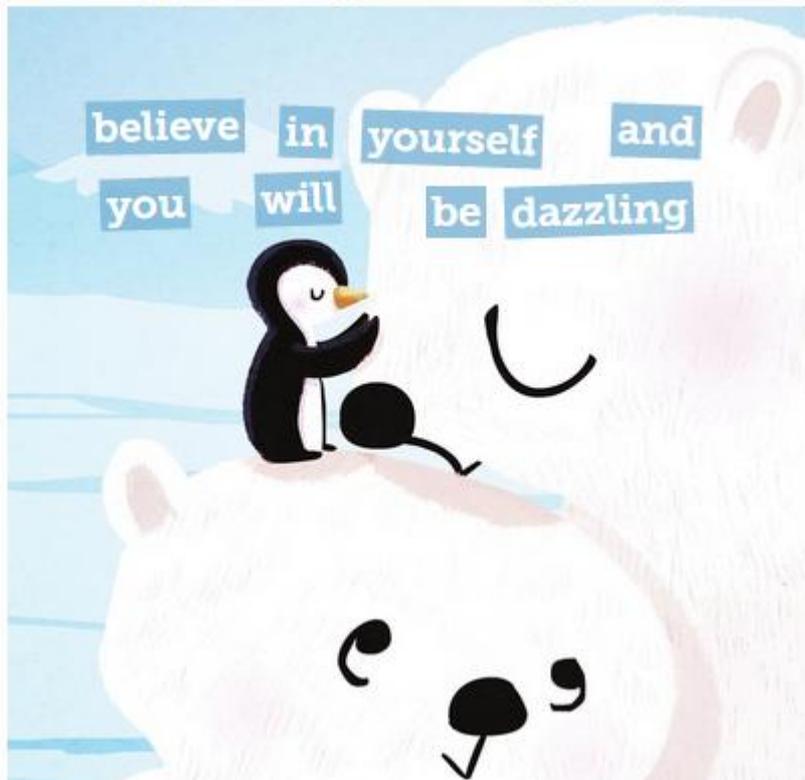

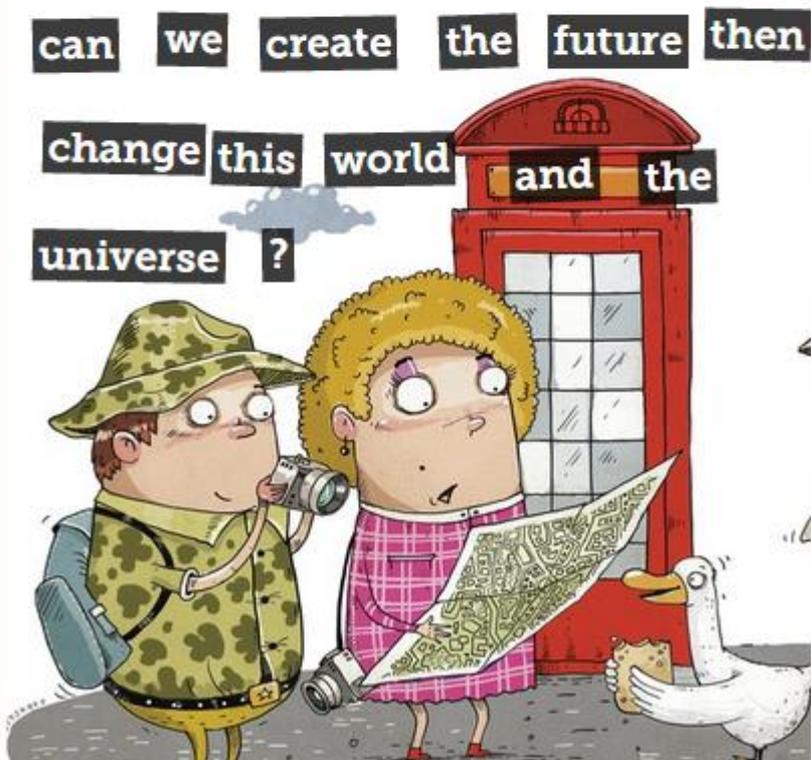

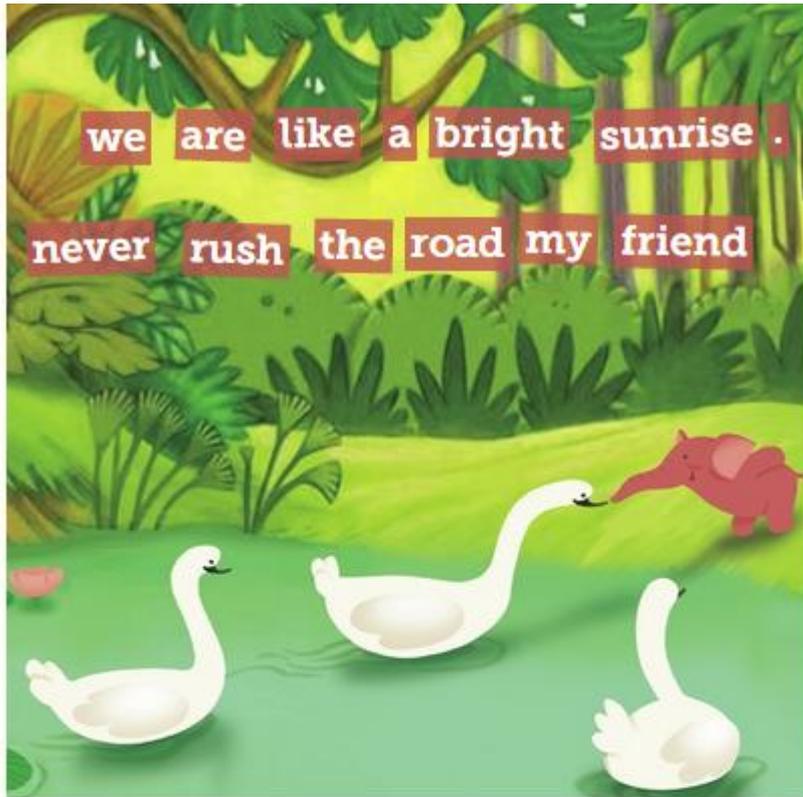

I am happy because you
make me laugh today .
yesterday we were full of
emotions ...

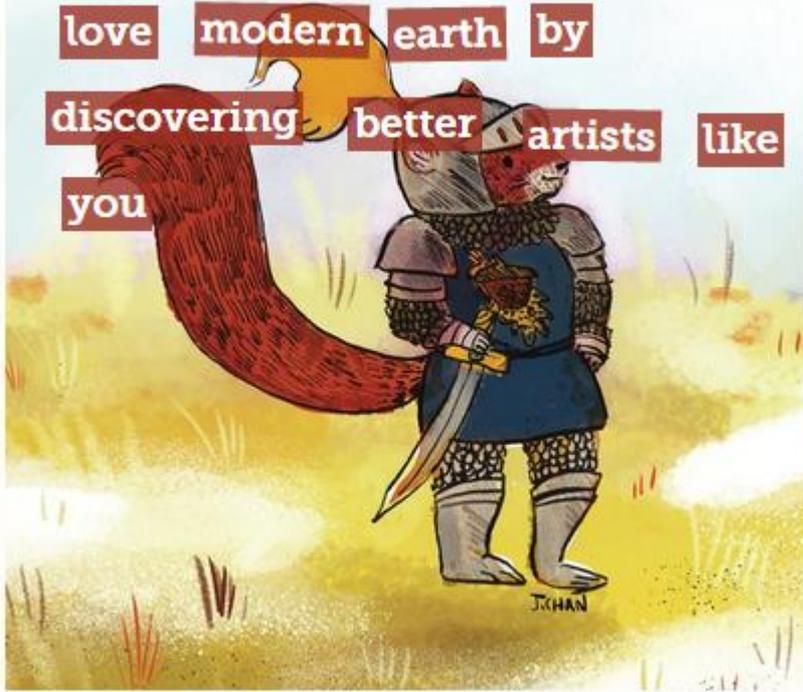

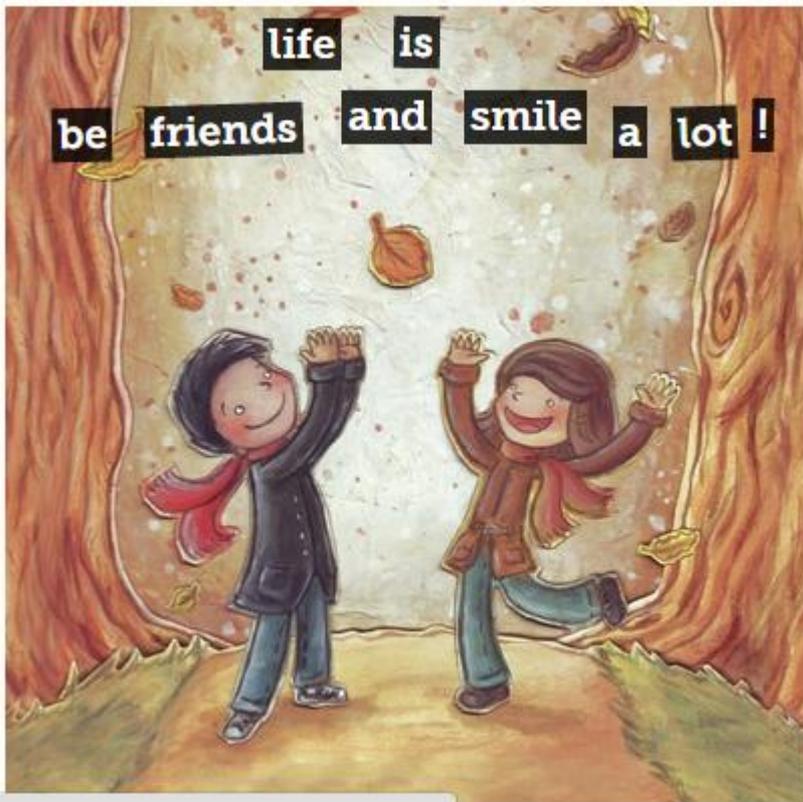

we stand beside someone and
love modern earth by
discovering better artists like
you

life is
be friends and smile a lot !

gratitude with our friends and
seeing generosity is wonderful

nirthe

I trust you
we are not afraid
