

Happiness can be found in little things

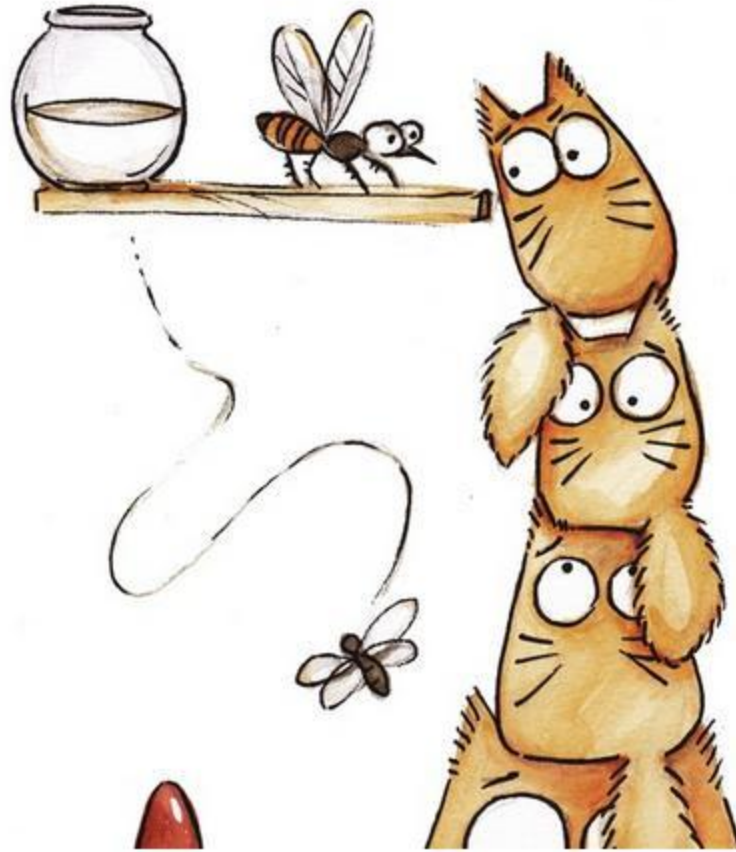

itziarriarte

Willy was a lonely cat who used to live alone, since he was bullied at school.

Even his teacher told him
he was useless and that
he would be nothing in
life.

One day, when he entered class, his classmates put on his head a fish tank.

He felt miserable, so he decided to change school.

There he met a nice group of friends, and fell in love with the most beautiful cat of the school.

They started going out, and at the end, they formed a family.

It was a big family and
they lived happy.
