COMPREHENSION

Read the text below and answer the questions that follow. (10 marks)

A day in the life of an Australian teenager, by Jennifer Taylor

This is my key pal, Nicole. Her life is different. She lives in Central Australia at 'the outback'. She doesn't go to school every morning like other children around the world. They're miles away from cities and towns so there are only 'schools of the air' at the outback.

Three times a week she has an 'on air lesson' for 30 minutes only. Her teacher, Mr Kennard, doesn't live in the area. 'I see him on my computer screen and he sends me work to do by e-mail. I do it and I send it back' says Nicole.

Every day she studies for five to six hours. She learns things off by heart and she does exercises. She also watches interesting videos and of course she takes tests. 'My mum helps me a lot. If I have a serious problem, I send an e-mail to my teacher.

In the afternoons, she goes horse riding and she also learns how to cook. She enjoys cooking. 'There aren't many children in the area but I've got two very good friends. What do you do every day? I'm sure your life is really different!'
