

The screenshot displays the Alice 3.7 software interface. At the top, the title bar reads "Alice 3.7 C:\Users\penel\Documents\ALICE\MyProjects\PROC\_gumnastiki - PERSON\_1.a3p". The menu bar includes "File", "Edit", "Project", "Run", "Window", and "Help".

The main workspace is divided into several panels:

- Scene Panel:** Shows a 3D scene with four characters on a brown ground. A message "rendering disabled for performance considerations" is visible in the top left of the scene area.
- Procedures Panel:** Lists "TeenPerson" (2 Editable Procedures) and "Person" (1 Editable Procedure). The "gym" procedure for "this.teenPerson2" is selected.
- Code Editor:** Contains the following code:

```
declare procedure myFirstMethod
do in order
do together
  (this.adultPerson) gym
  (this.teenPerson2) gym
  (this.childPerson) gym
  (this.childPerson2) gym
```
- Run Panel:** Includes a play button, a speed slider set to "1x", and a "restart" button.

At the bottom, there is a toolbar with various coding blocks like "do in order", "count", "while", "for each in", "if", "do together", "each in", "together", "variable...", and "assign". The Windows taskbar at the very bottom shows the search bar with "Αναζήτηση" and several application icons.
